

## SEWAGE DAMAGE CASES COST CITY \$8948 LAST YEAR

Part Of 1923 Claims Not  
Paid Until This Month,  
1924 Gets Credit.

### PETITIONS CLAIM DAMAGE TO FARMS

Failure Of Disposal Plant  
Beds To Operate Prop-  
erly Is Costly.

A total of \$6,278.67 was paid out by the city in 1923 to residents in the vicinity of the disposal plant who secured judgments in common pleas court because of alleged damage to their property by sewage that seeped out of the beds.

This 1923 total is somewhat under that for 1922 which amounted to \$8,655.64, although some of the cases are new. The lower total in 1923 is due, however, to the fact that some cases for which judgments had been rendered several months ago were not paid until Thursday, the cases amounting to \$2,670, giving a new start for 1924.

Each year all the old cases and some new ones have been brought up. The petitions claim that streams in the vicinity of the city sewage disposal plant, had become contaminated. These streams flow through farms northeast of the city and the farmers claim the pollution is detrimental to their health and to their cattle.

Many times in the last year the sewage problem has been discussed in council. It is the opinion of most of the councilmen that something will have to be done very soon to remedy the condition that now exists.

At present eight beds, all old, do not work satisfactorily. The two new beds constructed three years ago function properly and it is in these two beds that most of the city's sewage flows.

The load has been too strong and now there is a certain amount that flows out. It is the contention of many, however, that the sewage that escapes does not go near some of the properties mentioned in the suits.

The property owners, however, contend that the sewage has spoiled their land, and is detrimental to their livestock. These judgments have always been secured easily, the city making settlement out of court.

## 45 FEEBLE MINDED CHILDREN IN HOME

County Gets Its Bill From  
State Institution For  
Inmates' Care.

From Feb. 1, 1923 until October last, it cost Columbiana county \$3,535 for the care of 45 feeble minded children, now inmates of the institution for the feeble minded at Columbus. This fact was revealed in a statement just received by County Auditor Charles E. Hamilton from the department of charities.

The report shows 45 children from Columbiana county now being cared for up to the close of business as of Oct. 31 last.

On this basis, the county has been paying at the rate of \$78.50 per month for the care of these children.

In addition to this charge, there has also been paid by the county for the month of November \$426.58 for the care of feeble minded children, there being six patients from this county now being lodged after by the State Division of Charities.

In all, the county paid out Friday \$2,961.58 for the care of these charges for the time indicated.

### This Farmer Thinks Crawford Is Sheriff

County Sheriff George Wright, upon his return from serving some papers in Middletown township Friday, told the story of a farmer in that township not knowing that a change had been made in the sheriff's office, and of the belief of the farmer that Attorney Samuel W. Crawford of East Liverpool was still sheriff.

"He told me that he had never heard of you," Mr. Wright said to Sheriff Homer Lewis, in relating the incident.

### Story Hour Saturday Entertains Children

Miss Florence Jane Tolerton and Miss Helen and Dorothy Flick were in charge of the story hour at 10 a. m. Saturday at the Salem public library. Wood folk and animal stories were told.

These story hours, directed by Miss Mary Holdeman, of Salem Community Service, are held each Saturday at 10 a. m. at the public library and each Wednesday at 3:30 p. m. at the Community house.

### Head Of Children's Home To Speak Here

Yes, C. R. Stevens, superintendent of the Cleveland Children's home, will speak at the Christian church Sunday morning at the regular church service.

## Indicted Woman In Klan Killing

Mrs. Margaret Weaver, indicted woman in Klan killing.

Mrs. Margaret Weaver has been indicted in Atlanta, Ga., as an accessory to the murder of Capt. W. C. Cohn, Atlanta attorney, for which Philip E. Fox, former Ku Klux Klan editor, has been sentenced to life imprisonment. Mrs. Weaver is said to have been a close friend of the slayer.

## CANTON GIRL DIED TO SAVE HONOR, MOTHER SAYS; REWARD OFFERED

Canton, Jan. 5.—Ruth Hunter, whose lifeless body was found on the Richville-Reedman road near this city Wednesday night, was picked up before reaching the down town section, police believe.

This conclusion was reached when close examination of the girl's coat, revealed a dime which her mother had seen her place in the cuff of the right sleeve so she "wouldn't have to bother opening her purse when she boarded the street car."

This discovery lends weight to the story told here yesterday by a youth who said he saw two men drag a girl into a car near the spot where Miss Hunter usually boarded the trolley.

Over the protests of Chief of Police Lengel the girl's funeral will be held this afternoon. Chief Lengel requested Coroner Shorb to postpone the funeral until he has ascertained "whether or not the unfortunate girl had come to her death from natural causes or at the hands of an unknown person or persons."

The girl's vital organs were sent to Columbus last night for analysis. The theory that the girl was chloroformed and then dropped along the road is accepted here as the cause of death.

"Ruth died to save her honor," Mrs. Grace Z. Hunter, mother of the 19-year-old girl said today. "I would rather see her lying here cold in death than to see her living as the victim of any man's lust," the heart-broken mother said as she pressed her hand tenderly upon the golden hair of her fair daughter.

"Ruth was a trusting and good girl," Mrs. Hunter said, "but I know she was inveigled into that machine on that fateful night because she never made up with strangers. I had always taught her not to associate with others than those with whom she was well acquainted."

"That she died in an effort to emu-

## PRISON TERM FOR DOLLINGS CHIEF

Columbus, Jan. 5.—Common Pleas Judge Duncan today sentenced Dwight Harrison, Columbus, former vice president of the defunct Dollings Company of Ohio, to three years imprisonment in the penitentiary and fined him \$5,000.

Harrison recently was convicted in the sale of stock. Duncan overruled a motion for a new trial. Harrison was granted a stay of execution, sentence pending disposition of his appeal to the Franklin county appellate court. He retains his liberty on \$35,000 bond.

### CHIEF WARNS SLED RIDERS

The practice of boys and girls hitching their sleds to the backs of autos and trucks must be stopped, Chief of Police T. W. Thompson stated Saturday.

Many complaints have been lodged with the chief by motorists and drivers and also by residents on the streets saying that imminent danger from death or injury under machines is the result of the practice in the last two days of youths being "pulled" by their own accord from the backs of autos.

### ZERO DAYS DUE ALL NEXT WEEK

Washington, Jan. 5.—The weather bureau today issued the following forecast for next week.

Ohio Valley.—Temperatures below normal. Generally fair weather. Great Lakes Region.—Occasional snow flakes. Temperature will average below normal during the week.

## PLAN TO ABOLISH DEATH CURVE ON SALEM-LISBON RD.

State And County To Share  
In Cost Of Straighten-  
ing This Road.

COST ESTIMATED  
AT ABOUT \$16,000

State Road Officials View  
Curve At McCracken's  
Corners.

Providing the state highway department and the Columbiana county commissioners can get together on the proposition, the reverse curve at McCracken's corners, on the Salem-Lisbon rd. will be abolished during the current year, and the road at this point be made straight.

Such is the opinion of H. R. McCoy, of the maintenance division of the state highway department, expressed after he and W. C. Fawcett, of Martins Ferry, division highway engineer, and County Surveyor Lloyd C. Kirk, viewed the "death curve" this week.

Serious accidents without number have occurred at McCracken's corners within the last few years or since the road was improved between Salem and Lisbon, and all on account of the sharp reverse curve at that point.

Preliminary plans have already been drawn by the county surveyor for the straightening of the road, and last year serious consideration was given this project by the commissioners. Lack of finances has caused a delay in this proposed curve elimination.

In the opinion of Mr. McCoy, the straightening of the road will cost about \$16,000, and if the county and state can make an agreement to go through with the project on a 50-50 basis, it is believed the state highway department will approve the work.

State Aid Secured  
Last year the state highway department spent upwards of \$60,000 from its maintenance fund for roadwork in Columbiana county, and it is believed approximately \$55,000 will be required for similar work in the county during the current year.

It is the intent of Mr. McCoy to make his recommendations to his department for 1924 work in Columbiana county immediately upon his return to Columbus, and all that has been suggested by him has received the approval of Division Engineer Fawcett.

On the Lincoln Highway south of Lisbon, it is proposed to place a concrete top on the present macadam road north and south of Brown's bridge.

There will be another road letting in Columbus Feb. 15, but whether the Liverpool township trustees will have a share in this work is not known. It is declared the progress of resurfacing and widening of that section of the East Liverpool-Youngstown road in Liverpool township, north of the city limits rests entirely with the trustees of Liverpool township. The trustees were favorable to the use of White surface material on this job, but the state highway department objected to receiving bids for such construction.

## CHURCH OFFICIALS PLAN FEDERATION

Rev. Ford Of Youngstown  
Tells Men About Work  
In His City.

With 100 men present, much interest was manifested in the fellowship meeting held by officials of the Salem churches Friday evening at the First Presbyterian church, preceded by a supper.

Rev. George L. Ford of Youngstown secretary of the Federation of Churches in that city, was the principal speaker. He told of the work being done in his home city by the federation and of things it plans to promote to create interest in church activities.

Rev. Ford expressed the belief that such an organization can back up and encourage municipal officials, and that it gives Christian people a means of expression. A number of impromptu talks followed Rev. Ford's address.

A committee composed of one member from each church was appointed to make some proposal as to the advisability of an organization of church officials here and it will report at a similar meeting to be held early in February at the Methodist church.

### Three Services Are Arranged For Victim Of Railway Accident

The funeral services for James H. Bare of Alliance, formerly of Salem, will be held as follows:

At 7:30 p. m. Saturday at the home, 830 Morgan ave., Alliance, the Eagles and Brotherhood of Railway Trainmen will hold their service. At the same hour Sunday evening the Loyal Order of Moose and its auxiliary will hold a service. Anyone is privileged to attend these ceremonies.

A private service will be held at 1 p. m. Monday in charge of Rev. John Tait, Interment in the Alliance cemetery.

### Fine Reports Given By Lutheran Cadets

For the first meeting in the new year a large number of boys and young men attended a session of the Emanuel Lutheran church Friday evening at the parish house, Broadway.

The financial report for the last year, made by the treasurer, Lee Scheefter, showed the funds to be greater than the previous year.

Mrs. Gus Schuster and Mrs. William Endendorfer were elected mothers for the new year. Lawrence Batcher was received as a member. After the business meeting light refreshments were served.

### Drop In Personal Tax Returns Cuts Salem's Duplicate

Decrease in personal tax returns is responsible for a drop of \$700,000 in Salem's tax duplicate rate for 1924, according to County Auditor C. E. Hamilton.

The county auditor stated Saturday that personal tax returns had fallen off in all parts of the county this year. A drop in the value of stocks is said to be partially responsible for the cut in personal property.

## FORD CALLS AUTO AGENT OF PEACE, WOULD END WARS

Enough Automobiles Could  
Pacify Mexico, Manufac-  
turer Believes.

### INDUSTRY IS JUST GETTING STARTED

Says Airplane Will Never  
Be As Popular Over  
Short Distances.

New York, Jan. 5.—More automobiles—less war. The automobile is an agent of peace, says Henry Ford.

"There are no remote places in the United States and the people of many nations live here in peace in understanding," says the manufacturer, "because there is an easy interchange of ideas and ideals."

This interchange, Ford explains in an interview is due to the automobile. The Detroit manufacturer believes enough automobiles could pacify Mexico.

Autos Will Prevent War  
The development of the automobile is the greatest single instrument for world peace I can think of," Ford declared. "When the automobile becomes as common in Europe and Asia as it is in the United States, the nations will understand each other. Rulers would not be able to make war because the people wouldn't let them."

"This is the biggest thing the automobile industry is going to accomplish—the elimination of war."

"What is the automobile industry coming to?" Ford was asked.

"What is the automobile industry coming to? Why, the automobile industry is just getting started," he answered. "There can be no saturation in the industry until there are more than enough automobiles to go around. Such a situation will be a long time coming—if it ever comes."

"But the automobile is coming to this."

Refinements everywhere. Mechanic test defects have been pretty well eliminated. Friction will be removed during life to the car and pleasure to driving. Cars will be made lighter, making riding easier."

Develops Airplane Motor  
The prospective opening up of the markets of the world for American automobiles is a subject of study for American manufacturers, Ford said.

Ford revealed that he is developing an airplane motor. He does not, however, plan to make airplanes, he said.

"The automobile business and the airplane business can be allied only so far as motors are concerned," he explained.

The airplane will never be as popular as the automobile, Ford said, as a means of transportation over short distances.

"But it probably will become useful for long distance travel," he said. "It is natural for human beings to travel on land."

Automobiles are going to be cheaper, Ford said, not because of cheaper materials, but because of "better production."

### 6960 Auto Transfers Registered By Clerk Of Courts Last Year

During 1923 there were 6,960 automobile transfers registered in the office of Clerk of Courts John T. Burns, a gain of 2,399 over the record of 1922, when 4,561 transfers were recorded.

During the first few days of the current year, there has been an increase in the filing of auto transfer over the record for the same period last year.

## Wellsville Woman Demands \$5,000 As Heart Balm

In a petition filed in common pleas court Saturday morning by Attorney P. M. Smith of East Liverpool, Izetta Tate seeks \$5,000 heart balm from A. H. Tate and in addition asks for \$250 and costs from Tate and Mathew Smith, the latter having purchased a property on Commerce st., Wellsville, in which the plaintiff declares she had an interest.

The petition sets forth that Tate agreed to marry the defendant Sept. 1, 1923, and that the wedding date was set for Sept. 23 last. It was then postponed until Dec. 10.

In the meantime, the petition alleges, Tate became acquainted with and "greatly infatuated" with Delphia H. Houck, a married woman, then living in Pennsylvania, and now an applicant for a divorce in the courts of this county.

## FOUR ARE DEAD, CAUGHT IN GRIP OF COLD WAVE

Mid-western States Shivering, Thermometers  
Drop Many Degrees Below Zero; Fierce  
Wind Whips Lakes Region.

Chicago, Jan. 5.—Four persons were dead in Chicago today, being frozen to death and from causes that can be attributed directly to the cold here.

Washington, Jan. 5.—Sweeping down out of Alaska, a cold wave has most of the United States in its grip today.

Temperatures of below zero were reported from Ohio, Kentucky, Indiana, Illinois, Michigan, Wisconsin, Missouri, Iowa, Kansas, Minnesota, Wyoming and Montana.

Chicago, Jan. 5.—An unidentified man, found frozen to death long before dawn today, with neither money nor overcoat was the first victim today of a renewed mid-west cold wave whose intensity unofficial thermometer readings put at 10 degrees below zero in Chicago.

Weather bureau forecasts for Illinois, Indiana, Michigan, Wisconsin, and Iowa all agreed on "colder to day."

A fierce west wind whipped the Great Lakes region. Its fury virtually cupped the bottom from thermometers. When government weather bureau readings ceased at 10 p. m. last night, the temperature had fallen to 2 below from 8 above at noon yesterday.

At 1 a. m. the coast guard station on the north shore reported 10 below a drop of four degrees in an hour.

The cold played all sorts of pranks with unofficial thermometers. An outlying police station reported its mercury shrunk to 15 below.

The last time thermometers were on a rampage in Chicago was in 1912 when they sank to 16 degrees below zero.

32 Below In Minneapolis  
Chicago reopened its municipal lodging house last night. Every bunk was taken and many slept on the floors.

These temperature readings, all below zero were reported.

Minneapolis, 32; Fond Du Lac, Wis., 25; Winneipeg, Man., 25; Des Moines, Ia., 23; Lincoln, Neb., 16; Springfield, Ill., 16; Milwaukee, Wis., 15; Kearney, Neb., 14; Omaha, Neb., 14; Kansas City, Mo., 12; Marion, Ind., 10; Indianapolis, Ind., 6.

California's climate was holding up above zero in San Francisco, while its head at a level of 454 degrees Denver, Colo., registered 15 above.

Snow Storm In Cleveland  
Cleveland, Jan. 5.—Snow driven by a northwest wind, which started to fall during the early morning by daylight had covered Cleveland and vicinity to a depth of three to four inches. At 8 o'clock the storm was still in progress.

Streets cars were running late.

## WILL SEEK FUNDS FOR FISH HATCHERY

Salem Sportsmen To Draft  
Plans To Present At  
State Meeting.

In addition to other business of electing officers, and appointing delegates to the state meeting, the Salem branch of the county fish and game association will again take up the Guilford fish hatchery at the annual meeting Monday night in the Deluge hose rooms.

It is planned to formulate plans for this meeting so that the hatchery can be brought by the Salem branch delegates before the state meeting of the League of Ohio Sportsmen at Columbus Jan. 20.

The Salem branch believes that it can secure the needed help from the league to influence the state finance committee later to grant more funds for the hatchery, which will aid in its completion within a year.

At present only the money for the site has been forthcoming, and the county association has been attempting to get more funds so the building, and grading of the site, can be started in the spring.

**Hollywood Again**  
HOLLYWOOD has broken loose again and is in the limelight with another sordid chapter from the artificial life that has been developed in that big moving picture colony. Another man shot, some more women from the screen world in the story, there is mystery, probably much down-right lying, as the stories are too varied for reconciliation. It would have been expected quite too much to hope that colony would permit the holiday season to pass without another contribution to the ill repute foolish and unthinking people have given it.

The big producers, who have so much wealth invested in the business, must be weary of the troubles these sordid people make. It is not only annoying to the producers but it is damaging to the whole movie business. There may be some movie patrons who want to see pictures in which notorious men and women have parts, but the millions of decent patrons do not care for them. Unless the movie actor colonies are cleaned up the pictures will lose their appeal to the public and sentiment will develop along unfriendly lines. The moving picture industry is not helped but is jeopardized by these notorious people who flout the conventions of life and insist on living their own way. They may do so but they cannot retain popular favor.

Not a producer in any colony would want that latest Hollywood chapter written, but they will not throw out of their employment the offenders. In a few days a national convention will assemble in Washington to consider national censorship. The latest Hollywood sensation will be detailed in the speeches there and pointed out as one bit of wrong that censorship would eliminate. The producers will have trouble of that sort so long as they pay fabulous salaries to people of low thought and sordid life and continue to employ them after they have defamed many times. Hollywood needs disinfection.

**The New Reformation**  
SUCH has been the title given to the impending storm of controversy which is to break soon in religious circles between the modernists and the fundamentalists. As a matter of fact, the reformation of the sixteenth century was a protest against the Catholic church's attitude to refuse to admit of individual interpretation of the Scriptures and since that time there has been a multiplicity of religious sects, all of them founded upon the assumption of that right. Now this tendency seems to have permeated into the ranks of denationalism to the extent that each minister, according to the claims of the modernists, arrogates unto himself his own views of Christianity, throwing aside what the fundamentalists claim are the basic principles of Christianity, the virgin birth of Christ and the bodily resurrection among them.

As was the case centuries ago, much bitterness is flowing from the controversy and one would well pause to reflect upon the statement of a writer in the Ohio State Journal when he asks: "Is not the teaching and philosophy of Christ one of love rather than of hate and dissension? And if we differ, why can we not do so amicably?" Tolerance should prevail on these matters in this country, is his view. And so it is under the awe of this country, each individual is given this right—to worship God according to the dictates of his own conscience, and this idea should prevail and end to abate all bitterness over these matters of faith and practice.

Let each go his way as the light is given him to see.

## THE NEWS RADIO QUESTION BOX

Answers furnished by John Meyer, radio builder, of Woodland ave.

Q.—I wish to build a five or six tube receiver that will give distance, selectivity and volume. What circuits do you advise me to build?

M. W. A.—Any circuit that confines radio-frequency ahead of either a non-regenerative or regenerative detector, and at least two stages of audio-frequency will accomplish what you desire. Also, reflex circuits allow good reception over distances with fewer tubes.

—As it is that my friend who has a three tube set can get PWX using an inside antenna while I am using a four tube set and cannot succeed in getting anything outside of New York stations, for east, with Atlanta for the southern stations, and Omaha for the west? H. H.

A.—Contrasting the working of one set against another is rather a difficult job. However, a four tube set, if properly operated, should be able to get everything that a three-tube regenerative set gets, with a lot added. The operation of all sets should be thoroughly understood before you try to get distant stations with them. The first requisite of operating any set is to know the set itself; then when you thoroughly understand all its little kinks you can easily tune in stations.

Q.—What resistance rheostat should be used with WD12 or UV 199 tubes? If I use three tubes, should I use 1½ volt dry cells connected in series? Which is the grid plate and filament terminals of the tube sockets?

A.—A six ohm rheostat is correct for the WD 12, but a 30 ohm rheostat must be used for the UV 199. Connect them in series for the UV 199 but in parallel for the WD 12. The UV 199 tubes do not operate on 1½. The filament terminals are plainly marked on the sockets. Solder the socket down with the notched position from you the binding post directly to the left of the notch (always) the grid, the one to the right of the notch the plate.

## Care In Marketing Of Poultry Urged

Care in the marketing of poultry will increase the profits of the producer, declared County Agent C. E. Rowland in reviewing the possibilities for poultry raising in Columbiana county.

"There's too much crowding in coops at the loading point," suggested Mr. Rowland. "Live poultry should be graded by age and kind and shipped in different coops. Length of journey for the coops should also be timed by the shippers, so that the coops will arrive in the receiving markets early in the day and thereby insure immediate sale the day of arrival."

"It will prove a loss to shippers to have their coops arrive in the markets Saturday afternoon, to lay over until Monday. Such shipping and time of delivery will result in heavy shrinkage at the receiving end, and a subsequent loss in weight sustained by the shipper."

The Pittsburg market gets a lot of live poultry out of this county, especially over the Cleveland & Pittsburg rd. while many shipments from Ft. Wayne rd. points are routed to Cleveland.

## MRS. YOUNG ENTHUSIASTIC

Cannot Praise Lydia E. Pinkham's Vegetable Compound Enough. Sick Women Read This Letter

Charleston, S. C.—"I was completely run-down and not able to do my housework. I just dragged myself around and did not have energy enough to get up when I sat down. I read advertisements of Lydia E. Pinkham's Vegetable Compound in your books and learned about it. I got benefit from the very first bottle. I continued to take it for some time, and now I am doing all my own work, even washing and ironing, and never felt better in my life. I tell all my friends that the change in my health is due to but one thing and that is Lydia E. Pinkham's Vegetable Compound. I cannot praise it enough."

—Mrs. ANNIE YOUNG, 16 Amherst St., Charleston, S. C.

The reason for such a letter from Mrs. Young is apparent. She got well and is grateful. Recently a nation-wide canvass of women purchasers of Lydia E. Pinkham's Vegetable Compound was made, and 98 out of 100 reported that they received benefit from taking it.

Just because the Vegetable Compound has been helping other women is a good reason why it should help you. For sale by druggists everywhere.

## County Society Play Parts In Increasing Fruit Yield

Lisbon, Jan. 5.—Although Columbiana county has been considered for many years as one of the best suited for fruit growing in Ohio, on account of its high elevation, the Columbiana County Horticultural society during the last year has done much toward increasing the yield of the different orchards.

W. H. Matthews of Salem is president of this organization and in order to observe how the other fellow goes about his work, the society conducted three tours during 1923, every one of which proved to be a journey well worth while.

During 1923 there were 65 acres of apples set out in one orchard and members of the Horticultural society assisted in this planting. In this connection the spirit of co-operation was displayed, and has been lauded by all fruit growers in the county.

On the orchards of the county last year 79 tons of nitrates of soda were applied for the purpose of increasing the yield, and most excellent results followed. Where this was applied to orchards where the trees were bearing the crop was larger than the years previous, and in the case of young orchards the trees were given added strength.

At New Waterford, the fruit shippers out of that point formed the New Waterford Fruit Growers' association last year and the object of this movement was to grade, pack and sell co-operatively Columbiana county apples under the Buckeye brand.

It is possible that the county will again come into its own as a strawberry section. The carlots of strawberries that were formerly shipped out of Columbiana for years went to two wholesale houses only, the Iron City Produce company of Pittsburg and Fisher Brothers of Columbus. The latter interest signed contracts early in the season to take the entire output of the Columbiana association and then divided the shipments with their Pittsburg connection.

But the scarcity of labor and the high cost of packing during the war period caused a decline in the acreage of strawberries and it has not come back to its old record. However, there was a larger acreage of strawberries harvested in Salem, Fairfield, Unity and Middleton townships last year than during the 1922 season. Reports are now current that the 1924 acreage of strawberries will be greater in this county than last season.

## Haunting Melody Easily Traced In Heart Songs Book

It is doubtful if there is one owner of a Victrola or other talking machine or player of any description who does not have some recollection of the songs his mother—yes, and his grandmother—sang in the bygone years.

Many of us recall distinctly both the words and music of a few, but most of us have only a faint memory of a line or two of verses—maybe only a bar or so of a tune hummed over us when we were too young to have a conscious memory.

How frequently one hears "I would give anything to find out just what it was my mother sang so often." And there seems to be no way to discover it with the loved one gone so long into the great beyond.

There is a way, however a chance—in fact several hundred chances—that this vague memory may be traced. There is a way that one can frequently secure records of these very songs of long ago even if the titles have been forgotten by us.

The great new collection of "Heart Songs" which contains more than 500 pages of the best and most valued music of the days of our youth is being distributed to readers of The News so long as the limited number allotted to us by the publisher lasts.

To the music lover who buys records this will be a practical catalog of the words and music from which it will be easy to select a haunting melody or forgotten air. Another column shows how a copy of "Heart Songs" may be obtained today.

## A Good One On Grandpa

A hundred years ago this New Year's folks burned sperm oil in smoky lamps at a cost of \$2.40 per thousand candle hours. Or they could manage fairly well by the light of tallow candles at \$5 per thousand candle hours.

A. D. 1924, the average American pays 7c to 15c per thousand candle hours for electric light—the most perfect illumination of all. Quite a bit of difference in price, isn't there?

Other living costs may have risen, but illumination is cheaper and vastly better today than ever before.

The formal engagement of Prince Erik of Denmark to Miss Lois Francis Booth of Ottawa, Canada, has been announced. Prince Erik is a son of Prince and Princess Valdemar of Denmark; nephew of Dowager Queen Alexandra of England, and cousin of King George of England. He has renounced his rights to the Danish throne. His brother, Prince Viggo, also renounced his rights to the throne at the same time to announce his engagement to Miss Eleanor Green of New York city. Miss Booth is the daughter of Mr. and Mrs. J. D. W. Booth and the grand daughter of J. R. Booth, multi-millionaire lumber baron of Canada.

## SPURNS BANDITS' DEMAND, IS SHOT

New York, Jan. 5.—Edward H. Dolge, wealthy Mt. Vernon real estate operator, died today from the effects of a bullet fired by bandits when Dolge resisted them.

The shooting occurred shortly after midnight. Dolge was on his way home. He entered the Hunt's Point railway station. Two men stopped him. Dolge refused to obey their command to strip a valuable diamond ring from his finger. One bandit fired four times. Only one shot took effect. The bandits escaped.

## COLLEGES PEEVED WHEN GRID STARS ENTER WEST POINT

There is bound to be a lot of high feelings in the east just now on account of the apparently a-thwarted reports that George of the American quarterback of Cornell and Harry Wilson phenom back of Penn State fine eleven will enter the Army team next fall and play on the Army team.

What really started the fire was the jumping of Heclett into Pitt to the Army last year. He did not perform so spectacularly but nevertheless he played his full time at Pitt, and then entered West Point for more playing.

Any man has a right, if he get an appointment to enter the United States military and naval academy. But what the eastern colleges are howling about just now is that the real intention of these players is to play another four years, rather than any serious intention of becoming U. S. officers.

If Pfann and Wilson enter West Point there may be more college stars who will want to shine once more, and enter Annapolis or West Point.

The moral to this story is that, as the writer sees it, a college player has no serious intentions of taking the obligation of an American army or naval officer, should leave. Well enough alone, and either get into professional football, or drop from the height of stardom.

Most eastern colleges have the four-year rule, while the west has the three-year rule. It is obviously not fair to other players to allow one or two stars to play seven or eight years, when most of the players play two or three years.

What the United States academy needs is stricter eligibility, the east states, and demands.

## FAMOUS MEN FIVE FAST CAGE TEAM

The Society of Famous Men, a junior quintet of school basket stars, appears to have started on another record year, according to their reports that they have won all of their eight games played so far this season.

The team reports that it has defeated the West End five, Bortone five, Salem Wonders, Lorain Triangles, Beaver Falls Wanderers, Lisbon Paces, Alliance Juniors, and Salem Juniors.

Games scheduled in the future are as follows:

- Jan. 7—At Lorain Triangles.
- Jan. 8—Beaver Falls.
- Jan. 12—At Damascus.
- Jan. 15—Alliance.
- Jan. 22—Salem Wonders.
- Jan. 29—Lisbon.
- Feb. 13—At Sebring.
- Feb. 20—At East Palestine.
- Feb. 21—At East Liverpool.
- Feb. 29—Damascus.

Manager Schuler is dickering for more games. His team practices on the McKinley school outside courts.

## LEWIS DRUGS BOOK MANY FAST TEAMS

Lisbon, Jan. 5.—The Lewis Drugs five have eight home games scheduled for January and February and it may be possible that a fast Buffalo (N. Y.) five will be played in Lisbon, following the visit of the Buffalo team to Alliance during the next few weeks. The home schedule follows:

- Jan. 5—Favorite Knits, Cleveland.
- Jan. 12—Armstrong Corks, Beaver Falls, Pa.
- Jan. 19—Nazir Grotto, Canton.
- Jan. 26—Ohio Lamp Co., Warren.
- Feb. 2—Travis Pemberton Youngstown.
- Feb. 9—Goodyear Mutes Akron.
- Feb. 16—Exchange club, Youngstown.
- Feb. 23—Buffalo Flyers, Buffalo N. Y.

Before the season closes the Drugs expect to have both home and abroad games with the leading basketball fives in Salem and East Liverpool.

## ROOM 208 HANDS FACULTY DEFEAT IN CLOSE BATTLE

The Boys team of Room 208 of Salem High, is not only the interscholastic champion quintet of the school but now claim the intramural championship because of the defeat the undergraduates handed the faculty five in a game in the gym Friday afternoon.

The score was 12-11 and shows very clearly the close battle that was first the pros, and then the school boys' game. From the start it looked like the teachers would win easily but 208 put on a spurt near the end of the fracas and came out victorious with the cheers of the entire High school ringing in their ears.

Rightman, head coach, and Owens were the high point scorers of the faculty, each getting four points. Hahn tallied six points for the room team and was leader of the game. Schuler got four markers for the 208 lads.

## WINONA

Miss Edith Gamble was agreeably surprised Wednesday evening when 16 of her friends paid her an unexpected visit. The guests came dressed as children and each one something to represent the name of book. Games were played, and refreshments served.

## Exide BATTERIES

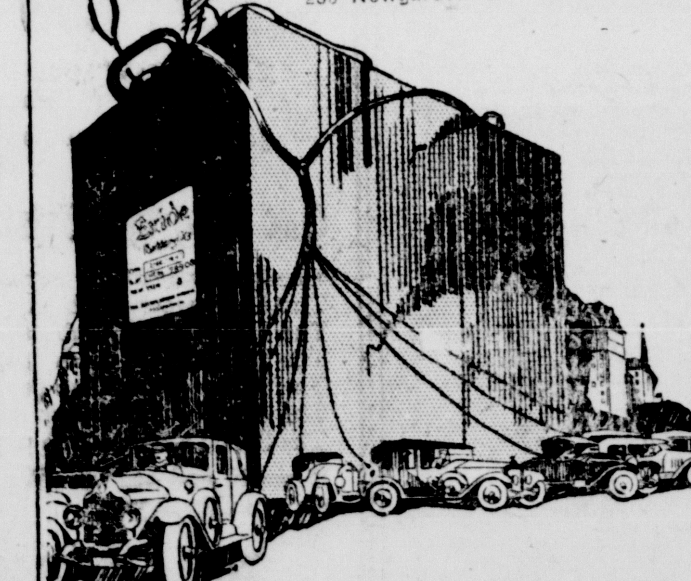

## The Long-Life Battery

The actual performance of a battery in your car, and not a paper "guarantee," is what counts.

Since the days of the first storage battery (which was an Exide), the Exide has been earning its reputation as the long-life battery. Ask some Exide owner—they are all about you, for more cars leave the manufacturers' hands equipped with Exides than with any other battery.

The dependable, long-lasting power of the Exide means more to you even than comfort—it means dollars-and-cents economy. We repair all makes of batteries and are sure you will like our work.

## RESUMES PROBE AT STEUBENVILLE

Columbus, Jan. 5.—Attorney General Crabbe announced today that Attorney Sherman Deaton, his special representative, will return to Steubenville Monday where he expects to complete his investigation of charges of alleged laxity of law enforcement on the part of Jefferson county and Steubenville authorities. Following a conference with Deaton, lasting more than an hour, in which the situation was thoroughly canvassed, the attorney general expressed belief that Deaton will be able to complete his probe and submit his report within a few days.

## COOLIDGE TO GIVE OBREGON MORE AID

Washington, Jan. 5.—President Coolidge will be disposed to approve the sale of additional arms and ammunition to the Mexican government if the supply of 5,000 rifles and 5,000,000 rounds is not enough to put down the De La Huerta revolution, it was learned here today. Secretary of War Weeks is of the opinion that President Obregon will need to make further purchases in this country.

## Night Dress Ignites, Burns May Kill Girl

Dayton, Jan. 5.—Miss Edna Allen, 19, was probably fatally burned here this morning when her kimono and night dress were ignited by an open grate fire. Clothing was burned from her body.

Two girl roomers extinguished the flames but Miss Allen's body was terribly burned.
